

The image features the word "Intellis" in a large, bold, blue sans-serif font. The dot of the second "i" is a solid red circle. The logo is centered over a background of four vertical panels, each showing a different energy-related scene: an offshore oil rig at night, an industrial facility, a large storage tank, and a construction site with a crane. The panels are slightly faded and overlap each other.

Recommendation Letter for Intellis

To Whom It May Concern,

I am writing to express my utmost appreciation and to highly recommend Intellis Company for their exceptional contribution to the Cabot Zhuhai expansion project. This project, notable for its complexity and challenges, was a groundbreaking endeavor for Cabot as it was the first time we implemented an Integrated Project Management Team (IPMT) model and relied on external resources, including construction and engineering teams, provided by Intellis.

Intellis's professional service and provision of highly capable resources were fundamental to the project's success. Their expertise and dedication ensured that every aspect of the project was executed with precision and efficiency. The IPMT model, facilitated by Intellis, has been recognized by global leaders for its effectiveness and is set to be shared as a best practice across other projects worldwide.

I would like to specifically commend Sabrina Cheng, the CEO of Intellis Company. Sabrina's profound knowledge, business acumen, and deep understanding of the project's intricacies were invaluable. Her ability to positively motivate and lead her team played a crucial role in driving the project to a successful completion.

In conclusion, Intellis Company has proven to be an indispensable partner in our ambitious project. Their professionalism, expertise, and commitment to excellence make them a highly recommended resource for any organization seeking top-tier project management and execution capabilities.

Sincerely,
Neil Cheng 程锦承
Project Manager (Cabot Zhuhai Expansion Project)

Dear Mrs. Sabrina Cheng:

On behalf of Huntsman PD/MTBE project team, we like to express our satisfaction of your service and the staffs you supplied to our NH PD/MTBE project in Nanjing. The staffs provided do a great job in their discipline with positive working attitudes to fit into our management team quickly, which assist our team and project greatly in completing our works in designing, preparation and construction stages.

We also praised you and your office staffs. You are a good team with high quality capacity, efficiency and flexibility which demonstrated by your quick and efficient service in providing suitable personnel, arranging selection interview and quick arrangement of personnel to our site that saved the time and cost of our project. We would like to recommend your company and your services to any other company need temporary or permanent staffs and look forward to continuing our cooperation on future projects.

With kind regards,

Dear Mrs. Sabrina Cheng,

On behalf of Shanghai TGE Gas Engineering Co., Ltd., we wish to express our satisfaction of your services and the staff you supplied to our three projects in Shanghai. The staff provided performed their duties well and were easily integrated into our existing teams which assisted us greatly in completing our works. Your staff were knowledgeable in their respective disciplines and willing to work overtime during our final project closure, often under a great deal of pressure from our tight construction schedule and requested high quality and HSE standards.

We also appreciate your own, and your office staffs, quick and efficient services in providing us a selection of personnel to choose from, as well as arranging selection interviews and the quick relocation of staff to our sites. We would recommend your company and your services to any other company seeking short term temporary staff and long term permanent staff. We continue our collaboration on future projects.

With kind regards,

Dear Mrs Sabrina Cheng,

I would like to express my satisfaction for your service and the staff you supplied in our Insulin Capillary Filling Project in Suzhou. The personnel provided was knowledgeable and with good attitude and has provided a significant contribution to the overall CAP effort, in a complex environment high level Quality & EDC requirements, complexity of interfaces and aggressive timeline.

I also appreciate your work and the one of your office staff, very fast in providing us candidate in line with our expectation, arranging selection and relocating personal in our offices.

I will definitely contact you and your Company again in case of future large project in China that will need the support temporary staff and I recommend you and your Company to other company with same need.

Dear Mrs Sabrina Cheng:

On behalf of AkzoNobel cross-linking Peroxides/Ningbo/Co.,Ltd DCP project, we wish to express our satisfaction of your services and the staff you supplied to our DCP project in Ningbo. The staff provided demonstrated their professionalism in their discipline and positive working attitudes which support our project greatly in completing our works, especially on Mechanical and E* construction management on site. They work well with our team and work with high effectively. They often under a great deal of pressure from our tight construction schedule and expected high standard, but they can overcome well and solve problems.

We also praised you and your office staff, high quality and efficient work in providing suitable personnel, arranging selection interview and quick arrangement of personnel to our site. We will recommend your company and your services to any other company need temporary or permanent staff and look forward, where possible, to continuing our association on future projects.

With kind regards,
AkzoNobel cross-linking Peroxides (Ningbo)Co.,Ltd DCP Project.

To whom it may concern

My name is Theo FW. Brugman, Project- and Construction Manager on Chemical and Pharmaceutical projects around the globe.

My first Contact with Mrs. Sabrina Cheng was in 2011 in Ningbo China and from that year we participated in several 300M+ Euro and complicated projects in China and Thailand.

Sabrina started as supplier of materials and labor for the Akzo Nobel Ningbo projects, but soon became a partner for all Projects, Authorities, Permitting and network related topics. The fact that she has a very broad knowledge of the market, the technical personnel and the project requirements in China resulted in the start of her own recruitment company.

During this start-up she was able to create her own pool of workforce that supported us, but also third party, projects with high quality project members, ranging from Document controllers, Engineer, Inspector, Construction teams and Quality Managers in China, Thailand and for our Swedish Customer.

Her company supports but is also able to supply complete solutions for projects in South-East Asia from Engineering to Start-up of Technical projects.

Mrs. Cheng is a hardworking, knowledgeable, and very pleasant to work with entrepreneur. Her communication skills, her pragmatic approach and her very positive attitude motivates the whole team.

I can recommend Mrs. Cheng and Intellis to any company that has a project of similar complexity, it would be a pleasure to work with Sabrina and her team in the future again and would like to thank and wish her good luck for the near future.

Best regards,
Theo Brugman
Sr. Construction Manager Bachem AG, Bubendorf, Switzerland.

19.02.2024, Bubendorf Switzerland

To WHOM IT MAY CONCERN

Sabrina Cheng is with her INTELLECS CORPORATION team an excellent bridge between (your company and potential) China vendors and manufacturers. For our projects in Thailand we used during the last years the services from Sabrina and her team in sourcing materials and equipment on the Chinese market.

We addressed several vendors who couldn't be accessed due to the language barrier but another advantage is that Sabrina is dealing with local market prices which is a real benefit.

The communication with Sabrina and her team is very efficient, their feedback on questions is very adequate and clear.

As person Sabrina is a very nice person to work with, she has a good understanding of the business and very open to the World outside China.

Also for onsite factory inspections (SAP/DC) during manufacturing in China we were happy to use Sabrina's team, we received good and detailed reporting of the visit. For future projects we will certainly use her services again.

Sincerely,
Piet Waardenburg
Global Procurement Director CAPLEX

Appreciation Letter to Intellis Corporation

Dear Sabrina,

We are writing this letter to present our sincere appreciation for your great contribution to our important project - special grade gas for HSCC.

Your assigned team members for electrical and piping supervision provided a very professional service on site to ensure the safe, timely and successful completion of project.

We believe it is proven that our long-time cooperation will be firm and in continuity.

Very truly yours,
Jerry Wang
