

## WHY FLY THE FLAG OF THE FEDERATION OF ST. KITTS & NEVIS?

There are many advantages to registering your vessels with St. Kitts & Nevis, not least the rapid turnaround of enquiries and applications from our worldwide network of maritime registrars. But equally important is the SKANREG ethos, which all members of our team are committed to upholding.

## THE BENEFITS OF WORKING WITH US

### WORLDWIDE NETWORK OF MARITIME REGISTRARS

Our network enables owners to liaise with a registrar within the same time zone who may speak their native language. Clients also have the option of collecting their vessel registration certificate and seafarer documents directly from the Maritime Registrars office rather than waiting to receive a courier package.

### CENTRAL CONTROL OF REGISTRATION DOCUMENTS

This enables the registry to ensure all documents issued are in accordance with the ISO 9001:2015 Quality Assurance accreditation. We believe "Time is Money" and so we always strive to issue correct documents in every instance.

### ENGLISH LAW

Recourse to a well established legal system based on English Law. Our Merchant Shipping Act follows the General Principles of English Law including Ship Mortgages and any redress that may be required. It is well respected by multiple City of London Law firms with over 40 banks and financial institutions from around the world who hold mortgages on St Kitts & Nevis flagged vessels.

### REGISTRATION EFFICIENCY

The Registry can turn an enquiry into a registration within 24 hours, providing a complete and satisfactory application is received. We also strive to provide technical advice and solutions to our ship owners within the same time frame.

### HEAD OFFICE LOCATION

SKANReg Head Office is conveniently located in London for worldwide time zones. London based law firms, management companies and the London financial district are within 25 minutes' travelling distance.

### EXPERIENCED STAFF

All SKANReg head office staff and Maritime Registrars are knowledgeable and vastly experienced in assisting ship owners/managers with every day queries within our busy industry as well as providing guidance in flag state regulatory matters.
